PUNCH BOARDS ARE BARRED BY ORDER

Mayor Burkart Gives Notice that Such Devices Will Not be Permitted in the Future.

COIN MACHINES PROHIBITED

Ordinance Requiring Dogs to Be Kept on Premises of Owner Will Also Be Enforced.

C. W. Burkart, city mayor, today issued an order forbidding the operation of punch boards and penny machines in this city. During the last few days many complaints have come to Mayor Burkart and John T. Abell, chief of police, regarding these machines and a demand was made that they enforce the law prohibiting their use. Mayor Burkart said that all such sale devices would be barred in the future and that he had instructed the police department to see that the notice is carried out to the letter.

None of these machines has been in use in this city until recently. During the last few weeks, however, a number of punch boards on which knives, money and other articles of value were offered as prizes were placed on the counters in several places of business. Some of the punch boards, it is stated, are conducted on a commission basis while others were sold outright to the dealers. Merchants who operated such boards said that they did not regard them as gambling as interpreted by law and permitted them to be used only as a sales device.

Not only punch boards, but penny sales machines, will also be barred in the future, according to Mayor Burkart's order. It is explained that a number of these machines have been in operation for some time. A few of them are looked upon as machines of skill although the players have a chance of winning several times the amount invested at each play. Under a strict interpretation of the law, it is stated, these machines are prohibited in Indiana.

Mayor Burkart made it plain to the police that he wanted the law enforced in regard to both punch boards and coin machines. One woman informed the mayor that she had seen one young man spend more than four dollars on a punch board without winning any of the principal prizes. It is explained that the large number of punch boards in operation is due to a special campaign which has been made here by representatives of novelty houses.

Mayor Burkart also stated that numerous complaints had come to him that the dog ordinance is not being enforced and that many dogs are permitted to run at large. He made it clear that the ordinance requiring all dogs to be kept on the premises of their owners from April 1 until September 1 would be enforced and instructed the police to take up all dogs found running at large. A number of people have declared that it was their belief that if they paid dog tax their dog would not have to be kept at home. The city officials explain that the tax must be paid on all dogs kept in the city and that in addition they must also be kept off the streets and allies between April 1 and September 1 at the time when the local garden season is at its height.

SALVATION ARMY WILL WAGE DRIVE

Carlyle H. Allen Accepts County Chairmanship—Jackson County's Quota is \$3,700.

TOWNSHIPS TO BE ORGANIZED

American Legion and All Organizations in County Will be Asked to Assist in Campaign.

N. C. Schlemmer, of Greensburg, chairman of the Fourth congressional district to arrange for a drive to raise funds for the Salvation Army of America, was in the city today in the interest of the campaign which will be conducted one week beginning May 10. Carlyle H. Allen, commander of Seymour Post, American Legion, has accepted the chairmanship for Jackson county and will have charge of the campaign to raise \$3,700 which is the county's quota.

The Salvation Army drive this year throughout the United States is being pushed by ex-service men and the campaign in this county will have the support of all former soldiers. It is pointed out that all service men are anxious to repay the organization for its splendid work during the World war and the Salvation Army drive to raise funds has the endorsement of every service man's organization in the country.

A committee to raise Jackson county's quota will be named in the near future. Every township in the county will be organized and all civic and secret organizations will be asked to assist.

The Salvation Army has discontinued the practice of having their members solicit funds on the street corners and their work is being conducted with funds raised through public drives. Jackson county has never failed to meet her quota for this organization which has done wonderful work in the country. It is the opinion of many that the quota of \$3,700 will be raised without any difficulty whatever.

To Our Advertisers.

The increasing circulation of the Republican and the larger number of changes each day in advertisements makes it necessary to fix a little earlier closing limit for advertisements in order that the paper may appear at the usual time. Advertisers are requested to observe the following time limits in making changes or placing new advertisements, effective Monday, April 12, 1920.

Advertisements for the Daily Republican of one-fourth page or larger must be in the office by six o'clock the evening before they are to appear. Smaller advertisements or changes in regular spaces must be in the office by nine o'clock a. m. of the day they are to appear.

The first side of the Weekly Republican goes to press on Tuesday morning. For advertisements of one-fourth page or larger it will be necessary that arrangements be made by Monday evening and that the copy be in the office by Tuesday noon. Smaller advertisements will be accepted until nine o'clock Wednesday morning.

Thank you in advance for your co-operation.

FEW APPLICATIONS BY ABSENT VOTERS

These Necessarily Away from Precinct on May 4 May Mail Primary Ballot to Clerk.

BALLOTS NOT YET PRINTED

Requests for Ballots Will Be Recognized Until Two Days Before Voting Takes Place.

The provision of the primary election law known as the absent voters' law is giving candidates considerable trouble. This law provides that any legal voter who is necessarily absent from home on the day of the election may send his ballot to the county clerk whose duty it is to see that it is placed in the ballot box.

It is not always an easy matter to locate the absent voters, and even if they are located many are not interested in the primary to the extent of making the formal application for an absent voter's ballot. It is not always easy for a candidate to find out just who are his supporters in the primary and for this reason he may not know who to assist in getting an absent voter's ballot.

If a voter desires to vote by an absent voter's ballot he is required to make application to the county clerk not more than 30 nor less than two days before the election. The forms of application are furnished by the county clerk which are filled out by the voter. The clerk then mails the ballot to the voter who

Republican State Convention Expected to be One of the Most Interesting in Years.

WILL BE HELD MAY 12 AND 13

Fourth District Delegates Will Organize in Room 227 at The State Capitol.

The Republican state convention which will be held in Tomlinson hall, Indianapolis, on May 12 and 13, promises to be one of the most interesting meetings of its kind in recent years. The program has been arranged by the state committee and every minute of the two-days' session will be crowded full of events that will appeal to men and women who enjoy the political atmosphere which will pervade Indianapolis at that time.

The call of the state chairman states that the convention will be called for the purpose of "adopting a party platform, selecting delegates and alternate delegates to the Republican National Convention to be held in the city of Chicago on June 8, 1920, presidential electors, contingent presidential electors, and for nominating candidates for United States senator and governor, if such nominations are not made known in the state-wide primary on May 4, 1920, and for nominating the following state officers: Lieutenant governor, secretary of state, auditor of state, treasurer of state, attorney general,

Concrete Work Will Not be Resumed Until All Danger of Freezing Weather is Passed.

The Jenkins Construction Company and the Davis Construction Company which have the contracts for State Highways No. 4 and No. 1, respectively, have begun grading in preparation for concrete work. About a mile of concrete roadway was laid on each road last fall. The contractors expect to push the work rapidly this spring so that the roads may be opened to traffic during the middle of the summer. It is expected that the work will proceed more rapidly than last fall. Concrete work, however, will not be resumed until all danger of freezing weather is passed. The roads are built under the supervision of the state highway commission.

PUBLIC LIBRARY HAS BUSY MONTH

Over Six Thousand Books Placed in Circulation During March. Report Shows.

PATRONAGE GROWS RAPIDLY

Miss Katherine Frazee, Librarian, Has Distributed Cards in All Schools in City.

The Seymour public library during the month of March had six thousand books in circulation in the city and Jackson township which is the largest in the history of the institution, Miss Katherine Frazee, librarian, announced today. The patronage at the library has increased rapidly during the last year and at present the supply of books is hardly equivalent to supply the demand. However, it is hoped that funds to increase the supply of books and reading material will be received soon in order that the patrons may be supplied with choice selections without delay.

The importance of the public library in the city and community is becoming more noticeable each month. Probably the best test ever made was during the winter months when the library was compelled to close for several weeks on account of the heating plant being out of order and it was necessary to send away for the repairs. During that time hundreds of people that are regular patrons at the library met

INDUSTRIES ARE FORCED TO CLOSE

Unauthorized Strike of Railway Yardmen and Switchmen Spreading to New Centers.

SHORTAGE OF COAL IS FELT

50,000 Men in Chicago are Idle as Result of Walkout—Investigation is Instituted.

By United Press.

Industry in many sections of the country were closing down today because of inability to obtain supplies as a result of the unauthorized strike of railway yard men and switchmen.

The strike which started in Chicago has spread to the leading railway centers of the nation from New York to San Francisco. Estimates placed the number of strikers at approximately 25,000 men.

Railroads reported passenger service still unaffected, but thousands of cars loaded with food supplies standing still. The food situation in many cities will become serious in case the strike continues another week, authorities believe.

Shortage of coal was the first result of the strike felt by industries. Steel plants in Buffalo, Gary and other centers were forced to close furnaces because of lack of fuel. Coal mines in Illinois and Indiana fields were shutting down.

Fifty thousand men were idle in Chicago, according to estimates. 2,500 men practically one hundred per cent of those employed in the railroad yards were on strike at Detroit today, according to officials of five railroads affected.

Officials of the railroad brotherhoods are publicly opposing the strike. Investigation of the strike was started by the department of justice under direction of Attorney General Palmer with the view of possible action under the Lever act.

GOVERNMENT WARNED NOT TO RECOGNIZE STRIKERS

Brotherhood of Railway Trainmen Sends Telegram to Federal Commissioner.

By United Press.

Cleveland, O., April 9—The government was warned today not to recognize insurgent striking railroad yard workers by W. G. Lee, president of the Brotherhood of Railway Trainmen. The warning was contained in a message sent by Lee to W. Chambers, commissioner of the United States board of mediation and conciliation in Chicago.

The telegram read in part: "The illegal strike starting at Chicago and spreading to principal terminal in opposition to policy and advance of brotherhoods and swift men's union will be jointly disposed of by railroad companies and legitimate organizations and any attempt on the part of your board or any other department of the government to recognize this insurgent element will be met with strenuous opposition from the entire membership of all recognized labor organizations."

The wire was in answer to a letter from Chambers stating that the board stood ready to lend its assistance in effecting a settlement.

SEWER ELECTION.

The voters of Seymour will be given opportunity on Friday, April 23, to decide whether or not they want a new sewerage system constructed in this city. The question is one of vital importance. It is conceded that the present system is defective and inadequate. The need of sewerage, convenience in every part of the city is apparent.

The question that has been presented to the voters for decision at a special election should be considered carefully. The various phases that have already developed and will arise later should be weighed deliberately. The matter of spending \$250,000 or more for a permanent improvement merits more than passing attention. Every prop-

erty owner will be responsible for a part of the general expense.

The principal issue at bar now is not only whether we need a sewerage system but if the people have enough information regarding the system to vote intelligently. The special committee, which has been investigating this problem for the last six months, urgently suggests that a preliminary survey be first made in order that the city may know exactly what changes and repairs are needed. The committee points out that a definite program ought to be adopted before an undertaking of this magnitude is attempted. The opposition expresses the view that the method of construction is not so important. That is a matter for an engineer to decide, they say, and that the public ought to be given an opportunity to determine now if it desires to make the improvement before any expense is incurred.

It is also pointed out that if a plan of the sewerage system were prepared some slight changes might be made that would afford adequate relief for some parts of the city, that new extensions could be made to conform to the permanent system and that the proposed general system could be built at some future date. These are arguments that must be given thoughtful consideration. The city does not want to make a mistake in this very essential improvement. Many people are now undecided as to which course would be the best to follow. Undoubtedly there will be a general discussion of the project so that everyone will be given ample opportunity to become thoroughly familiar with the different suggestions before decision is made through the ballot box.

PEOPLE'S SAYSO.

Drives, Drives, Drives.

It is about time to let up on some of those drives or to have a drive that will do some good to our own people and help our own little children. Thousands of them need help. Thousands of little ragged children are growing up in ignorance. They can't go to church and Sunday School for want of clothing fit to wear.

Charity begins at home. Let us look after our own people first. The poor people of this country are beaten down until they can't stand it much longer. Lots of little children go to bed at night hungry and they are glad to get a little piece of food and a piece of stale bread for breakfast. How would these grafters like to sit their children down to such a meal. If a poor man makes a kick he is called a red or a bolshevik so he has to grin and bear it. Last summer poor people couldn't get sugar to can fruit but as soon as they got the price up to 20 cents a pound there was plenty of sugar. They say he kept us out of war but who is going to keep us out of the poor house? While our young men were in France fighting to save America grafters and profiteers were robbing their poor mothers, wives and children. You may call these people Americans, but I have another name for them.

There must be some way to lower the cost of living. There has been lots of investigating but that is as far as it goes. We might help bring some things down a little if the people would quit this thing they call style.

What Oil Husbandry Means to You

THE price of gasoline is high when compared to the price asked five years ago, but the price would be much higher if it were not for the long list of useful products made from that portion of the crude which is left after the gasoline and refined oils have been removed.

The Standard Oil Company (Indiana) makes a wide range of products from this residue — each product rendering a definite, useful service to mankind, and each bearing its share of the cost of production, thereby helping to keep down the price you pay for gasoline.

The petroleum chemists in the laboratories of the Standard Oil Company (Indiana) constantly are at work trying to develop new processes which will enable the Company to utilize every fraction of the crude oil, thus eliminating waste.

This means husbanding the country's resources by taking from the crude oil the maximum number of useful products, and recovering a maximum yield of each.

To do this is the constant aim of the Company.

SAYS FARMERS EXPECT TO REDUCE CROP PRODUCTION

State Field Agent Declares High Cost of Machinery Makes Conditions Uncertain.

By United Press.
Indianapolis, April 9.—Farmers of Indiana generally contemplate reducing crop production on an average of fifteen percent, taking the state as a whole, George C. Bryant, field agent of the department of agriculture said today.

"This can be attributed to the acute shortage of farm labor, the high cost of farm machinery and other farm necessities and the uncertain condition of the markets."

In some districts, Bryant said, the reduction will be as much as twenty-five percent on all crops combined, but that in others it will run as low as five percent, striking an average of fifteen to eighteen percent.

The Hoosier wheat crop this year will be thirty-two percent lower than

last year, Bryant added. In 1919, Indiana produced 2,882,000 bushels of wheat and the production this year cannot exceed 1,960,000. The

rye production will also be about ten percent less than last year and there will be less corn produced. Oats and hay, however, are likely to be increased.

"In nearly every county there is a severe shortage of labor," Bryant added. "This is true despite the fact that wages of farm laborers are fifteen percent higher than they were last year. Another important thing which the farmer considers is the ten percent increase in the cost of farm machinery."

"To illustrate the actual farm labor conditions I might add that there are ten percent more vacant houses on farms this year than there were last year."

"The farm hands go to the city in quest of higher wages which the farmer is unable to pay him under prevailing conditions."

The counties of Benton, Pulaski, Wells, Vigo and Delaware will face the heaviest decrease, according to Bryant, each of them averaging twenty-five percent. Those with only a five percent decrease are Henry, Lawrence and Ripley.

"If wages in the cities are so high as to draw labor from the farms, decreased cultivation inevitably will result," the field agent said. "In consequence of which city dwellers must expect to pay higher prices for foodstuffs unless labor is again attracted to the farm."

MEMORIAL TREES

Department of Conservation Proposes Extensive Planting.

By United Press.
Indianapolis, April 9.—One hundred and twenty-five thousand memorial trees in Indiana, laid out in ninety-two county park units, would be the state's most appropriate tribute in memory of Hoosier participants in the war, if planted this Arbor Day, Richard Lieber, director of the department of Conservation declared today. Such a chain of parks, individual to each county, would at all times constitute a wonderful memorial of what Indiana did in the world war, Lieber contends.

"While roadside tree planting is commendable in many respects and has its proper place in perpetuation of our forest policies, it is lacking in commemorative or sentimental value and impractical in this sense because not every road, owing to its con-

BREAD
is
A Meal in itself

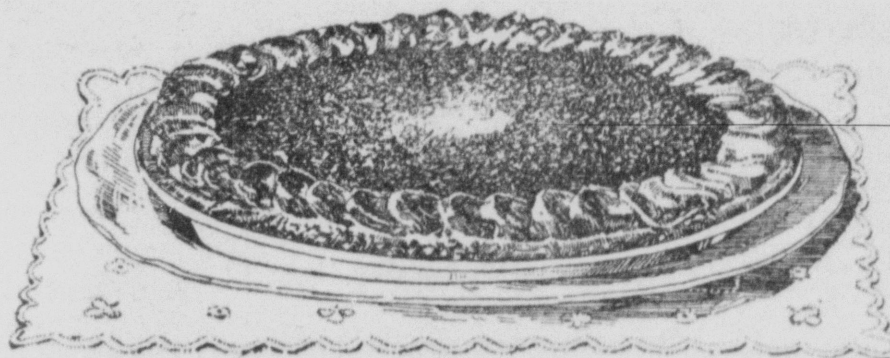

Let us first suggest soup with bread in it.

This is to be followed by delicious milk-toast and bread and jam. Bread molasses tarts will complete this nourishing, satisfying meal. Here is the recipe:

Bread Molasses Tart

8 tablespoons fresh bread crumbs	2 cups flour
8 tablespoons molasses	½ cup lard or butter
1 lemon	¼ teaspoon salt
	Water

Sift flour into a basin, then run lard lightly into it, add salt and enough water to make a stiff paste. Roll it out and line a buttered tin or platter with it. Mix bread crumbs, molasses and grated rind and strained juice of lemon; spread over the pastry, and bake in hot oven thirty minutes, or until the pastry is quite cooked. Serve hot or cold.

MORE BENEFITS SURE TO FOLLOW WOMAN'S BELIEF

Intends to Continue Using Trutona to Add Reserve Strength to Her System.

Indianapolis, Ind., April 8—Mrs. Ruth Mulryan, a well-known young Indianapolis woman who lives at 412 West Henry Street, is deeply grateful for the remarkable work Trutona did in her case. One needs to read her following statement to become convinced that Trutona is possessed of unusual merit. Below is what Mrs. Mulryan said about the perfect tonic the other day:

"I was taken down sick a week ago last Wednesday with a terrible headache. I had a high fever and my back pained me dreadfully. In fact, it seemed that every bone in my body ached. I could hardly stand it."

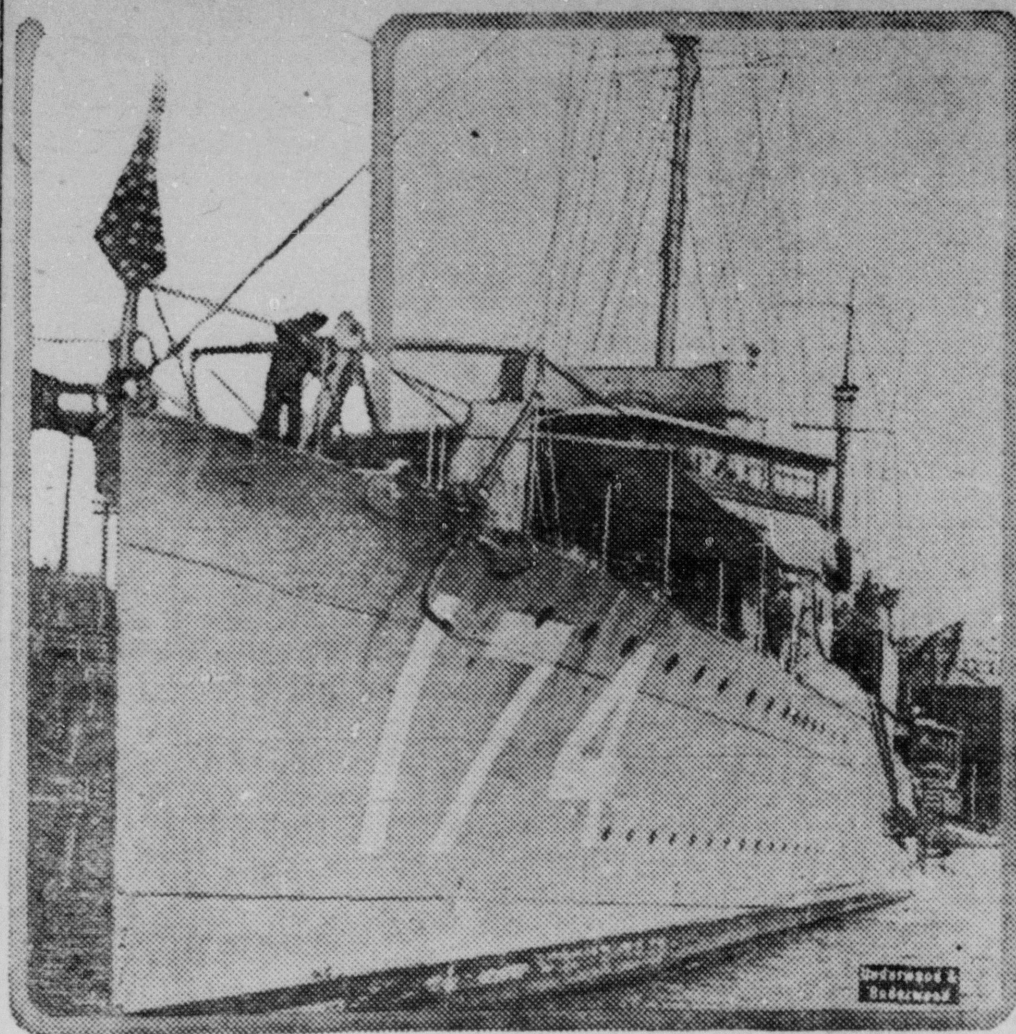

"I was advised to try Trutona and it certainly worked like magic on my system. From the very first I started to improve, and today, I'm able to do my own work again. The pain in my back has disappeared and my head doesn't trouble me any more."

"I intend to continue using Trutona, for if one bottle will do so much good, I'm sure there are further benefits in it for me. I'm thankful for the relief Trutona gave me and I hope every one, troubled as I was, will try this wonderful medicine."

Trutona's healthful action reaches every portion of the body, and performs its work faithfully and efficiently. Trutona rebuilds diseased nerves and tissues, creates a healthful appetite and assists in the assimilation and digestion of the food. Trutona is now being introduced and explained in Seymour at W. L. Federmann's Drug Store.

ALBERT B. STEINER, of St. Paul, Minn., who declares he is now able to do twice the work he could before taking Tanlac and that his sister has gained sixteen pounds.

"Talking about things that help people, I have just received a letter from my sister in Waterloo, Iowa, telling me she has gained sixteen pounds in weight by taking Tanlac."

said A. B. Steiner, 460 East Page street, St. Paul, Minn., recently.

My sister was on a visit to me a short while ago, and as she was suffering from stomach trouble some one advised her to try Tanlac, which she did, and as I saw the great benefit she was getting from it I decided to try it myself, for I had been troubled with my stomach for the past two years. I had a very poor appetite, and the little I did manage to eat seemed to lodge right in the pit of my stomach and sour. I would bleed terribly after eating and have the worst sort of cramping pains in my stomach, and at times I had such bad attacks of heartburn I would nearly go wild. My back gave me a lot of trouble, and I had such intense pains in the small of my back I could hardly bend over. To add to my other troubles, about two months ago I began to suffer with rheumatism in my shoulder blades and arms, which got so bad I could hardly do my work and could not even put on my coat without assistance. I was so nervous I could get but little sleep and would roll and toss from one side of the bed to the other all night long, and would get up in the morning all tired out. I was so badly run down and had lost so much weight I was so weak I could hardly get about at all.

"Well, while I have only taken five bottles of Tanlac in all my improvement is simply remarkable. I have such a good appetite I am hungry all the time, and my stomach is in such a splendid condition I can eat anything I want without suffering the least bit from it afterward. The pains have all gone out of my back and I never have the least sign of the rheumatism. In fact, I never have an ache or pain of any kind. I sleep as sound as a log every night and have gained in weight and strength until I can do twice as much work as I could before taking Tanlac. Yes, sir, I can recommend Tanlac after what it has done for me, and I know it will do the same for others if they will only give it a fair trial."

Tanlac is sold in Seymour by Maxon Pharmacy and in Crothersville by W. T. Taulman and in Brownstown by Chas. Brock.

WILSON WILL VETO PEACE RESOLUTION, CLERK SAYS

Democratic House Leader Declares Action Will be "Futile Performance."

By United Press.

Washington, April 9—President Wilson is certain to veto the resolution declaring peace which is expected to pass the house late this afternoon, Champ Clark, Democratic leader, declared in today's debate on the measure.

The resolution will never become effective, Clark said. He expressed doubt that the resolution would receive a majority vote in the senate. "It is a futile performance, an effort not to make peace but to make political capital that is apt to act as a boomerang," the democratic leader said.

Representative Ferris, Oklahoma, chairman of the Democratic campaign committee, indicated the President would soon resubmit the treaty to the senate and Representative Flood, Virginia, leading the fight against the resolution said he will seek to substitute for it a resolution which repeals the war laws but makes no mention of declaring peace.

GERMANS TO HOLD FRENCH RESPONSIBLE FOR DAMAGE

Berlin Delegation Said Position Would be Outlined in Note to Foreign Office.

By United Press.

Paris, April 9—France will be held accountable for damage to the lives and property of German citizens during French occupation of the Rhine cities, the German delegates here announced today. Members of the delegation said they would hand a note to the French foreign office tonight, outlining the Berlin government's position. The British reply to the French note asking an expression on French occupation of the German Rhine cities was handed to French officials this afternoon. The reply was unfavorable to the French position, it was understood.

Thought Husband Slain; Married Again; Divorced

Durham, N. C.—Mrs. Ida Page Griffin, the central figure in Durham's modern Enoch Arden case, was granted a divorce from Walter Griffin, the husband with whom she was living when T. O. Page, her first husband, believed dead, returned from army service.

Mrs. Page was officially notified by army officials of her first husband's death. Some time later she married Griffin. Only a few months ago the first husband returned to Durham.

Recently Mrs. Griffin announced her intention of divorcing both husbands.

FARMERS TELEPHONE HEARING SATURDAY

John W. McCardle, Member of Public Service Commission, Will Preside at Meeting.

John W. McCardle, a member of the public service commission, will be here Saturday and conducted a hearing in connection with the increase recently ordered for Mutual Telephone Companies that connect with the Seymour Mutual Telephone Company's exchange in this city. The hearing will be held at the city building and will convene at 11 a. m.

The farmers' rate was formerly 50 cents per year for each telephone and the public service commission increased that rate to 25 cents per month. The farmers will be expected to show that the increase is unreasonable and it is expected that a number of rural subscribers will be called to testify at the hearing.

TWO CARS DERAILED WEST OF SPARKSVILLE

Local Wrecking Crew Called to Clear Track—Threshing Machines Damaged.

Two loaded cars on an extra west-bound freight train on the Baltimore & Ohio railroad were derailed near Sparksville this morning at 8:40. The train was in charge of W. C. Bulger, conductor and O. C. Mahorney, engineer.

The local wrecking crew was called and succeeded in clearing the track in a few hours. Passenger train No. 67 was held up one hour and twenty minutes and No. 1 twenty-three minutes. One car was practically destroyed. The contents was valued at \$1000. Two threshing machines fell from a flat car in the wreck and a derrick was used in re-loading them.

Mr. and Mrs. C. C. Cross, who have been visiting in this city, went to Deputy this morning to spend a few days. Mr. and Mrs. Cross were recently married in Evansville.

A Romance of the Redwoods

In this stirring narrative of the California forests, strong men battle for a section of country as big as a principality. The fight of the Cardigans, father and son, to hold the Valley of the Giants against the treachery of Colonel Pennington, and the part played by the Colonel's niece in deciding the issue, make a tale of unsurpassed interest.

The exhilarating breath of the big woods is present on every page. The reader finishes with a sense of having lived with big men and women in a big country. **Our New Serial!**

Ohio's Hundred-bushel Growers.

Time was, before the Civil War, when Ohio farmers now and then raised a hundred bushels of corn to the acre. But of later years the average has dropped steadily until such a performance came to be regarded as impossible. Yet in 1919 eleven farmers in the state's Ten-Acre Corn Contest had yields above one hundred bushels and the winner of first prize raised 128.81 bushels to the acre. In The Country Gentleman of April 3 Harry R. O'Brien tells how the winner did it.

C. L. Slack, the man who grew the record crop, bought a rundown farm of 240 acres in Mushingum County seven years ago. Half of it was bottomland, the other half rather hilly upland. Neither was

regarded as very good farm land then. Now Slack is an unusual farmer. Beginning at the age of twenty-five with a wife and \$1,000 he is today, at thirty-nine, worth several hundred thousand dollars and owns more than a thousand acres of land. It was on this once rundown farm that he raised the state's winning crop. He fed cattle and sheep on the fields in the winter and in the crop season he followed a rotation of corn, wheat and clover, then corn again. Twice in four years he applied a thousand pounds of lime to the acre.

His first two cultivations of the record crop were deep and close, but the third was less in each particular. The rapid growth of the corn prevented a fourth cultivation. The result was that Slack not only set a record with ten acres of upland, but also with ten acres of the bottom-land. This bottom-land produced 116 bushels to the acre, a high enough yield to have won second prize if one contestant had been allowed more than one prize. J. D. Woodburn, of Campaign County, won the utility contest.

HIGHEST QUALITY AWARDS

WOOD MANAGERS FOR SUFFRAGE IN PRIMARY

Go on Record Favoring Vote For Women at Polls in May Balloting.

Indianapolis—(Special) — Leonard Wood's Indiana campaign managers have gone on record in favor of equal suffrage at the primary voting in May. The Wood leaders take the position that the women already have the right to vote for presidential electors and should consequently be allowed to vote in the primary to express a preference for the presidential candidate.

At a recent meeting in Indianapolis the district managers of the Wood organization passed resolutions supporting equal rights at the polls and urging the ratification of the nineteenth amendment. The resolution, which was presented by E. O. King, of Huntington, associate manager in the Eleventh district, advanced the belief that the women, having by previous legislation the right to vote for presidential electors, have by inference, the right to vote in the preferential primary. It also advocated that if further legislation to make this legal is necessary that the special session of the legislature, if one be called prior to the primary on May 4, pass the necessary law to grant to the Hoosier women the right to express their choice for presidential nominees.

Text of Resolution.

The text of the resolution is given herewith:

"Whereas the state of Indiana has by statute given the right to women to vote at the general election for presidential electors.

"Whereas the importance of electing a nominee for the Republican party is hardly less important than electing the man so nominated.

"Whereas women are voting in many states of the Union and thirty-five states have already ratified the national suffrage amendment, only one yet lacking to make the necessary three-fourths, practically all the northern states being favorable to women suffrage, now.

"Therefore, we, the Wood state committee, urge and indorse the ratification of the suffrage amendment to the Constitution. Meanwhile, in keeping with our attitude formerly expressed, we look with favor on the opinion expressed by the attorney-general that the women of Indiana, having the right granted by statute to vote for presidential electors, also have by necessary inference, a right to vote a preferential preference at the May primary election, May 4, without specific legislation thereon.

Recommend Legislation.

"If any legislation be needed, then we recommend that if the legislature of this state is convened in special session, it promptly enact a law granting to women the right to express a preferential preference May 4, 1920. And if a special session be convened we further recommend that Will H. DEBORAH AND BARAK DELIVER ISRAEL.—Judges 4:4-5:31.

GOLDEN TEXT.—God is our refuge and strength, a very present help in trouble.—Ps. 46:1.

ADDITIONAL MATERIAL — Judges 4:1-3; Heb. 11:32, 33.
PRIMARY TOPIC—A Brave Woman Helping a General.
JUNIOR TOPIC—A Story of a Hero and a Heroine.
INTERMEDIATE AND SENIOR TOPIC—Fighting on God's Side.
YOUNG PEOPLE AND ADULT TOPIC—The Services of Women in National Leadership.

The book of Judges covers the period from the conquest of Canaan and death of Joshua to the Judgeship of Samuel. While Joshua and the elders of his generation lived the people in some measure remained faithful to God in obedience to his Word, but the very next generation went into apostasy. Their declension may be accounted for as follows:

1. Failure to drive the Canaanites from their midst.
2. Their amalgamation with the Canaanites. Their close proximity to the people had its leavening effect, for they soon intermarried with the heathen. Tolerance with the enemy is closely followed by union therewith, and quick disaster comes in the wake of such union.

3. Idolatry. Intermarriage with the heathen was soon followed by the worship of the heathen gods. Thus Israel's power was gradually weakened, so that instead of being conquerors they became the conquered.

In chapter 2:6-9 is given a synopsis of the book of Judges:

1. The sin of the people (vv. 6-13).
2. God's judgment for their sin (vv. 14, 15).
3. Repentance of the people (3:9).
4. God's deliverance at the hands of the judges (vv. 16-19).

A repetition of sin, oppression by the enemy, repentance on the part of the people, and God's deliverance, is the story of the book of Judges.

1. The Judgeship of Deborah (4:1-5:31).

Her name means "Bee," suggesting orderly instincts. As suggested by another, "She answered her name by her industry, sagacity, and great use to the public." The period was marked by awful oppression. The Israelites were helpless, for the enemy had 900 chariots of iron. Deborah was an unimpeachable character. God raised her up

for such a time as this. Under a palm tree she held an open court for the administration of justice.

II. Deborah Summons Barak (4:6-10).

Barak means "lightning." Deborah, being a prophetess, was able to select the man whose gifts would enable him to rally the forces needed to gain the victory over the formidable foe.

1. Deborah's call (vv. 6, 7). It was God's call through her. She gave definite instruction as to the number of men and the strategy to be employed, assuring Barak that God would deliver Sisera, the captain of Jabin's army, into his hand.

2. Barak's reply (v. 8). Expression of unwillingness to go unless Deborah would go with him should hardly be considered as cowardice or weakness, as it is a well-recognized fact that the presence of a woman, especially the prophetess, would inspire courage on the part of the warriors. However, he should have believed God's ability to give the victory without the aid of a woman.

3. Barak's rebuke (vv. 9, 10). Deborah yielded his request, but made it plain to him that it would detract from his honor as a conqueror, "for the Lord shall sell Sisera into the hand of a woman."

III. The Defeat of Jabin's Army (vv. 11-16).

Sisera, the captain, gathered a mighty army and went forth with full assurance of victory, but he made a sad mistake; he did not consider that it was the Lord's battle (v. 15). At the psychological moment Deborah gave the signal to charge, assuring Barak that the Lord would give the victory (v. 14). Through supernatural interposition the enemy became panic-stricken (see 5:20).

IV. Sisera Killed by a Woman (vv. 17-24).

In his flight he took refuge in Jael's tent. Under the guise of friendship, she committed the most heinous murder. She fastened his head to the ground by means of a tent pin.

V. Deborah and Barak's Song of Victory (chap. 5).

This was composed and sung in celebration of the marvelous victory which God had wrought.

Lesson Text for Sunday, April 18.
THE VICTORY OF GIDEON'S BAND.—Judges 7.

credited representatives of the women to be presented to the state legislature by them for passage, if they deem it advisable and that the legislature be requested that said bill, if so presented be passed by said legislature; and further we pledge our support to aid in every honorable way to obtain the enactment of said legislation."

Discuss Wood Tour.

It was pointed out at the meeting of the managers that the Wood campaign committee early in the campaign had gone on record in favor of the women voting at the primary.

Plans are now being made for General Wood's campaign tour in Indiana. The district managers have put in a request for one or more speaking dates in every congressional district and it is likely that the general will spend at least five days in Indiana. He is expected to make his trip in this state about the last week in April. Among the cities that have put in a request for him are Bloomington, Evansville, Terre Haute, South Bend, Ft. Wayne, Indianapolis, Richmond and Muncie.

It was announced here early in the week that Col. Theodore Roosevelt has issued a statement setting forth the reasons why Wood should be nominated and elected.

Record His Recommendation.

"We need a man who will combine two principal characteristics in one," said the Roosevelt statement made public here. "First, the fearless determination to preserve law and order and the ideals of this country, and, second, the ability to conceive and put into operation the fundamentals of constructive, sane, liberalism. General Wood is this man. He is not a man that we have to take on trust. He is a man with a record which is his recommendation. He has handled the most difficult administrative work with consummate success, as his record in Cuba and the Philippines indicates."

To The Farmers and Fruit Growers of Jackson County.

It is our pleasure to be back with you again to carry out the three years free service contract in the way of pruning, spraying and replacing all stock that has died, free of charge, sold you in 1918-1919. When this company first opened this territory many people were jealous of us and thought we would never return after the first delivery, because the position which we offer the farmer is so creamed. But this is the third year we have been in this section and you who now have these orchards growing are doubtless pleased with quality of stock received and also the service which we have endeavored to give. To those who have not bought, we refer you to your fortunate neighbor who did buy and now has his plants maturing and getting ready to bear fruit. Get in line with him by placing your order with us, and our Liberal Contract will assure your getting best goods and perfect service.

Some of our representatives hope to see you soon and add to our long list of pleased customers or to enlarge your contract if already bought of us.

Assuring you of our hearty appreciation of past business, and thanking you in advance for any courtesies you may extend, we are
Yours truly

JOY AND GLADNESS IN THE DOOR

And Hard Work Out The Window!

My, what a number of happy homes we have since Joy Soap came to town. Women go singing about the house-work—and in almost no time everything is speckless!

Joy Soap sure works like a wizard! It does the washing, cleans dishes, bathtubs, windows, floors, anything and everything in double quick time. No wonder so many women are buying it regularly. They can get their house-work done quicker, easier and more economically by using this wonder soap.

Joy comes in a firm, white cake—you can just look at it and tell how different it is from other soaps. Use it and you'll be delighted. There is no sticky, "soapy" feel about Joy.

Don't look on house cleaning or dish washing as a terrible duty. Make it more pleasant by using Joy—clean, cool, white cakes of peerless soap.

Ask your grocer for Joy Soap today. Take it home and try it on the dirtiest, meanest jobs you have. Joy just loves hard work. It does the cleaning—all you do is just rub lightly. Once you've seen it work, you'll never want another soap.

ACME.

The health conditions in this vicinity are about normal again. Those that were seriously ill are recovering rapidly.

Ralph, son of Mr. and Mrs. O. R. Anderson, is ill.

Chester Gorbet, who was very ill with influenza, will go to Sellersburg to consult a specialist as soon as his condition will permit.

Oats sowing and potato planting is now the order of the day.

George Laraway has installed a telephone in his residence here.

The little town of Acme is undergoing some needed improvements. Several new houses are being built and others repaired and several lots are being enclosed with new fences.

Miss Phena Hrcamp, of Arkansas, in a letter to the Republican renewing her subscription says things that make one wish they too were in the "Sunny South." Corn and cotton planting is almost completed and garden vegetation there is maturing while we folks here are shivering around the stove. She was once our neighbor and while here was one of our successful school teachers. She has many friends here.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work. People afflicted with bad breath find quick relief through taking them.

Dr. Edwards' Olive Tablets are a vegetable compound mixed with olive oil. They act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood, and purifying the entire system. They do that which calomel does, without any of the bad after effects. Take one or two every night for a week and note the pleasing effect. 10c and 25c a box.

BIFF!

Stop jolting Liver and Bowels
with violent drugs, but
take "Cascarets."

"Dynamiting" bile out of your system with calomel and other sickening purgatives is all wrong. Salts, Oil, and Cathartic Waters act by flooding the bowels with the digestive juices which are vital to the stomach. Cascarets are different. They act as a tonic to the bowel muscles, which is the only sensible way to relieve a bilious attack, a sour, acid stomach, or constipated bowels. There is no gripping or inconvenience. You naturally return to regularity and cheerfulness. Cascarets cost very little and they work while you sleep.

The Valley of the Giants

The first story to adequately portray the majesty and grandeur of the big tree section of California and to use it as an effective setting for a stirring work of fiction.

Peter B. Kyne

in this principality of the woods, the redwood forests; an area four hundred miles long and of an average width of thirty miles; has introduced events and human participants well in keeping with the stupendous environment. The people are those who conquered a wilderness and hewed out a path for civilization—prototypes of the forest giants against which they prevailed. True to its locality and written by one who has lived among and been a part of the life he so delightfully pictures, it is one of the big books of American romance, action and incident. To know Kyne in any of his stories is wholesome; to know "The Valley of the Giants" is exhilarating in the highest degree.

Keep Clean.

Stay Away from People with
Coughs and Colds.

"Avoid crowds if you want to avoid influenza," says Association for Improving the Conditions of New York.

Keep your hands clean, drink plenty of fresh water; sleep with windows open; eat three uniform meals a day including a good breakfast.

People who have catarrh or frequent colds invite influenza, declares a prominent Kentucky druggist.

The membrane of the throat and nose is raw, sore and tender, and makes a lovely abiding place for germs to thrive and multiply.

He advises an inexpensive home-made remedy that will bring relief in less than a day and will stop all discharge and soothe and heal the inflamed membrane in a few days.

Thousands are making this beneficial remedy at home and anyone who has catarrh or a cold can do the same.

Pour three-quarters of an ounce of Mentholized Arcine into a pint bottle, then fill the bottle with water that has been boiled.

Gargle the throat as directed and snuff or spray the liquid into the nostrils twice daily. It's a simple way to get rid of cold and catarrh and keeps the nasal passage and throat clean and healthy.

Nearly all druggists dispense Mentholized Arcine in vials containing exactly three-quarters of an ounce, which is all you need to make a pint of this healthful medicine.

NEWSY PARAGRAPHS

Work has been resumed on the Baker bridge one-half mile east of Reddington. The contract was awarded last fall to J. U. Montgomery, of Reddington township, and part of the contract was completed before winter weather.

J. W. Mosier, of Bedford, Republican candidate for the nomination for prosecuting attorney of the Jackson-Lawrence judicial circuit, was in the city today looking after his candidacy. Mr. Mosier is a member of the Lawrence county bar. He spent one time in the west part of the county and will return to Seymour soon.

J. T. Abell, chief of police, received a message from New Albany this morning asking him to watch for a Ford car which was stolen from the chief of the fire department in that city last night. The thief was last seen driving north in the car. The local police have been watching for the automobile but so far no machine answering the description of the New Albany car has been seen in this city.

An added attraction at the Princess theatre is a phonograph equipped with a sounding device which makes it possible for the music to be heard several blocks away. The device provides a perfect tone and band and orchestra numbers reproduced on the records, sound as if the music was being rendered by a large musical organization instead of by a phonograph. The Princess has also added an orchestra which is greatly appreciated by the patrons. The theatre was crowded to full capacity Thursday night when the production "In Old Kentucky" was shown. The same program will be repeated this evening. The picture is one of the best ever shown in this city.

WON RACE TO HELP SUFFRAGE

Left to right: Mr. Jesse A. Bloch, millionaire senator and tobacco manufacturer of West Virginia, who raced across continent to cast his vote for women's rights in West Virginia, and Mrs. Eli A. Yost of Morgantown, West Virginia, chairman of the campaign committee of the West Virginia Equal Suffrage association and who has been directing the long fight in West Virginia for ratification. It was Bloch's vote that decided the fate of equal suffrage in West Virginia.

FEW APPLICATIONS
BY ABSENT VOTERS

marks it and returns it to the clerk. Frank L. Schornick, county clerk, said that a number of applications for ballots in the coming primary had been received at his office from absent voters. Although the law provides that ballots may be distributed to absent voters at any time within thirty days before the primary election, this is impossible inasmuch as the ballots have not been printed and will not be available until after the state ballots are sent out by the secretary of state.

It may be ten days or more before these are printed.

Local party leaders do not believe that as many requests for ballots will be received for the primary as were filed in the last general election.

Dietz Funeral.

The funeral of Mrs. Amelia Dietz, widow of the late Charles Dietz, who died Wednesday night, will be held from the Nazarene church Saturday afternoon at 2 o'clock conducted by Rev. H. H. Lee, the church pastor. Interment in Riverview cemetery.
